RFP Section/Page No	4.8.2 Key Positions, Page 34
Question:	The RFP has identified nineteen key positions. Section 4.8.2.3 on page 35 requires that the 10.4.3 – Key Positions Resume Sheet be provided for key individuals. In section 10.4.3 page 143 it states that “the Candidate agrees to be submitted for consideration exclusively by the PROPOSER.” These key positions are currently filled by the incumbent and it would be assumed that the incumbent, if proposing, will have all these positions in their proposal with current personnel. This requirement will require other proposers to replace all these positions with new

	<p>employees which is a significant portion of the existing workforce. Is it the intent of ASA for non-incumbent proposer's key positions to not have experience with ASA clients and their needs?</p> <p>If a non-incumbent proposer were to win the contract the incumbent key position employees will know that they do not have a position after the contract start date. Are there mechanisms with the incumbent to keep these employees during the transition so that knowledge can be transferred? With this large of a key personal list, the incumbent has an unfair advantage of personnel familiar with the ASA work. Will the State reduce the number of key personnel required to submit resumes to increase competition?</p>
AUTHORITY Response:	ASA reviewed Key positions and have removed Graphic Designer, Web Developer, Business Analyst, and Technical Outreach Specialist. (SEE AMENDMENT 1, to be posted by 5/5/2022)
